Subject: January meeting notes

Very well. Major items - (if I missed anything, those of you who were there, please ad)

We passed a Return Check Policy in order to absorb the fee we are charged
We passed a policy that "participants who are diagnosed with a handicapped be waived from all performance judging"
We passed a motion to allow Alana to rename the website at a very reasonable cost

Classic - hoping to be held at Noble HS - Melissa and Joellen should know for sure by the end of today; many areas of the classic were discussed and ideas tossed around on how things could be handled. I stressed that we look for good prices on everything. Something we should discuss soon is a budget number for the event. In addition, I requested that Melissa and Joellen send us (via email) all final recommendations on prices of all items and decisions on all choices so that all officers can make (together) a final approval. I don't think this should all be on Melissa's shoulders and she agreed.

One final note on the Classic is and was stressed at the meeting is that we must require volunteer participation for the days events and at the very least, all officers need to take an active role in assisting Melissa & Joellen in preparing for the event as well as the day of the event. As we all know host a regular invitational can be overwhelming enough the Classic can put you out! :-) To acquire volunteers, I suggested that we require each participating team to submit with their registration 2 names & numbers of volunteers for the day and if they cannot get volunteers then they would pay a fee of say \$30 so that we could pay say a HS student or Adult to give their time. This works very well with the State track & field summer program. :-) The consequence would be if they do not comply to either is that they could not participate.

Next Meeting: February 11th, 6:30PM, LAYCL

Let me know if you have any questions. :-)
